

Model 35C-LS Low Seam Scoop

Friends
of Coal

LOW SEAM. HIGH PRODUCTIVITY.

A Scoop for Every Mine

If you mine low-seam coal, Fairchild International has the scoops to help you operate efficiently.

Our ground-based battery changing system, heavy-duty steel frame with full-year warranty, ball bearing center section and John Deere inboard planetary axles with wet disc brakes combine to give you the maintenance-friendly performance you expect.

The state-of-the-art technology in all of our low-seam scoops makes us the leader in underground mining equipment. It's a place we've earned after being in business for more than 40 years.

Fairchild scoops are:

- > Ideal for mines with seam heights as low as 28"
- > Able to combine energy efficiency with ruggedness
- > Mining companies' best value for their purchasing dollars

So, the next time you need low-seam scoops, depend on Fairchild International.

For more information on our scoops, continuous miners, haulage systems and maintenance vehicles, call us at 540.726.2380 or visit www.fairchildint.com
