

DIESEL DURABILITY

At Fairchild International, we believe in designing tough and reliable equipment to assist mining operations in efficiently producing results. You will find these qualities throughout our **35C Diesel Powered Workhorse Series** of scoops.

The units feature state-of-the-art technology; exceptional design characteristics throughout the machine, including a 140 cubic foot capacity center eject bucket with optional bucket sizes available. It also includes 38-44 inch tires and John Deere 1400 series inboard planetary axles with internal wet disc service brakes and hydraulically controlled differential lock.

To learn more about how our equipment can improve your mining efficiency and production please give us a call at 540-726-2380, or email sales@fairchildint.com
