

CONTINUOUS PROFITS

At Fairchild International, we have been designing and manufacturing durable, reliable haulage systems since 1955. You will find these qualities throughout our **Hi-Cap XL Continuous Haulage System**.

Through extensive research, Fairchild engineers and field service personnel have worked alongside mine operators to develop a top quality, high capacity haulage system packed with impressive features including lower ground pressure for reduced wear and tear on tram units and less pressure on the mine floor and unmatched flexibility for easy maneuverability.

To learn more about how our equipment can improve your mining efficiency and production please give us a call at 540-726-2380, or email sales@fairchildint.com

Features of the Fairchild Hi-Cap XL Continuous Haulage System

- > 30" Conveyor with a Capacity Up to 22 Tons Per Minute
- > Dual 180 Degree Articulating Crawlers Offer Unparalleled Flexibility
- > True 90 Degree Cross-cut Capabilities
- > Center-operated for Increased Visibility, Safety and Operator Comfort
- > True Main Frame - Built for the Long Haul
- > Optional Remote Control Operation
- > More Reach, Less People, Higher Profit
